Sexual, domestic and family violence are all crimes.

It can happen to anyone,

It is **never the fault** of
the person who has
experienced the violence,

It is common in all communities.

In Australia, 1 in 4 women and 1 in 22 men will experience sexual, domestic, or family violence.

This is not caused by how someone dresses or what they do.

It is **never the fault of the victim.**

The person who experiences the violence nearly always knows the perpetrator.

Counsellors can assist with:

- managing the impacts
- reporting to Police
- medical support
- telling family and friends
